COMPREHENSIVE LISTING OF AERIAL PHOTOGRAPHY

librariated at the

U.S. DEPT OF AGRICULTURE, ASCS
AERIAL PHOTOGRAPHY FIELD OFFICE
2222 WEST 2300 SOUTH
P.O. BOX 30010
SALT LAKE CITY, UTAH 84130-0010

The comprehensive listing shows the various photographic coverages used by the U.S. Department of Agriculture archived at the Aerial Photography Field Office. This library includes photography used by the Agriculture Stabilization and Conservation Service (ASCS) and its predecessor agencies, the U.S. Forest Service (FS) and the Soil Conservation Service (SCS).

Coverage of the Agricultural Soil Conservation Service (ASCS) and the Soil Conservation Service (SCS) is listed alphabetically by states and counties. A Federal Information Processing Standards (FIPS) numerical code is assigned to each county following the FIPS and SCS after July 1, 1971.

Coverage of Forest Service photography is listed alphabetically for each forest within a region. Numerical codes used to identify FS projects are assigned by the Forest Service.

NAPP - National Aerial Photography Program and NHAP - National High Altitude Photography - are flown in color infrared positive film. Coverage is listed alphabetically by state and county. Due to the constant state of change in the acquisition of new coverage available from NAPP/NHAP, this part of the listing is designed to allow for timely and periodic updates. New listings by state are available upon written request.

Photo indexes or spot indexes and microfilm duplicates are available for most projects. The number of index sheets required to cover a project is shown.

Rectified enlargements are available from photography used for ASCS programs. This means that scale, tip, and tilt data, computed through an analytical aerotriangulation system, is available to produce true-to-scale enlargements for indicated projects. An increasing amount of rectification data is also available from some of the Soil Conservation Service and Forest Service projects.

See reverse side for a glossary of terms, however, if you have any questions please contact the Aerial Photography Field Office at (801) 975-3503.

GLOSSARY OF TERMS

YEAR - Year the original contract was let.

CONTRACT YEAR(S) - Year the original contract was let. Not the year the photography was flown. (1 - Cycle 1 NHAP i.e. 1HAP80
2 - Cycle 2 NHAP i.e. 2HAP85
3 - Cycle 3 NAPP i.e. 3HAP87)

MAJ YR

FLOWN - (NAPP/NHAP Listing only) Year the majority of the county was flown.

(P) - Partial coverage. For ASCS projects, partial coverage generally occurred in counties containing large areas of non-agricultural land.

SCALE - Fractional scale [i.e. (40) = 1:40,000]

INTERNEG - Black & white internegative from NAPP/NHAP photography is on file.

FILM - Film Type

B/W - Black and White Negative
CIRP - Color Infrared Positive
CIRN - Color Infrared Negative
CN - Color Negative

PI - Photo Index. A rough mosaic assembly of the prints covering each project or county area. The assembly of prints is copied to a scale of 1" = 1 mile. The number listed indicates the number of index sheets needed to cover a county or project area.

SI - Spot or Line Index. A detailed map with the center of each photograph plotted by flight line and exposure number.

RECT - Rectification data available. Enlargements can be photographically rectified to produce scale accurate reproductions of cropland or cultural areas.

REMARKS -

* - Scheduled for rectification.

BLK - One or more county or project areas grouped to form a larger block.

ASCS/

SCS - First agency to require rectification accuracy.
